DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/11/2008 has been entered.

Claims 1, 4, 7, 10 and 13-18 are currently pending and under consideration.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Response to Amendment

The Declaration under 37 CFR 1.132 filed on 10/12/2007 is sufficient to overcome the rejection of Claims 1-2, 4-5, 7-8, 10-11 and 13-18 under 35 U.S.C. 102(b) as being anticipated by Diaz et al. (J. Biol. Chem. 2000; 275: 26265-26276, *IDS*) based upon the showing that the microtubules as described by Diaz et al. 2000 are structurally and functionally different from the microtubules used in the claimed invention.

Rejections Withdrawn:

All previous rejections are withdrawn in view of Applicants submission of a certified copy of the international application and an English translation of the international application, amendments to the claims or in view of the Applicants arguments.

New Rejections:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigwald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 4 recites the broad recitation of any fluorescent derivative of paclitaxel, and the claim also recites specific examples of fluorescent derivatives of paclitaxel including, 7-O-[N-(2,7-difluoro-4'-fluoresceincarbonyl)-L-alanyl]paclitaxel, 7-O-[N-(2,7-difluoro-4'-fluoresceinsulphonyl)-L-alanyl]paclitaxel, 7-O-[N-(4'-tetramethylrhodaminrecarbonyl)-L-alanyl]paclitaxel, 7-O-[N-(2,7-difluoro-4'-fluoresceincarbonyl)-L-beta-alanyl]paclitaxel, which is the narrower statement of the range/limitation.

Conclusion

Claims 1, 7 and 13-18 appear to be free of the prior art and in condition for allowance.
